1854 Howard Edwards 1930

Beloved President of
Rhode Island State College
1906-1930

Dedication

TO one who, with steadfast purpose and undaunted aim toward the ultimate goal, has made this college, our college, what it is and what it stands for in the educational system of the State of Rhode Island; to one who has passed the last milestone in a courageous and well accomplished career; to one who has left with us ideals that will remain immortal; to Dr. Howard Edwards, our beloved President, the Class of Nineteen Thirty dedicates the Thirtieth Volume of THE GRIST.

So Mote It Be

Victor Enoch Lindstrom

In Memoriam

This hour of joy in the completion of our task is tempered with sorrow by the recollection of one who, taken in the first bloom of eager youth—in the second year of our lives together, made life worth while.

A brilliant athlete, an excellent student, and a friend whose passing leaves us with a keen sense of personal loss, Victor Enoch Lindstrom, '30, who died on February 5, 1928, will live on in our hearts, a friend always, as he was in life.

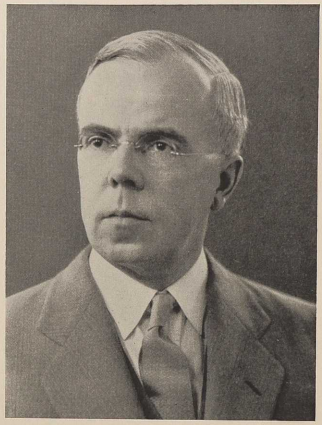

Charles Henry Holland

In Memoriam

Let us not forget him who shared our four years together and has gone to join the members of our Class Triumphant. His passing, with his sunny disposition, ready helping hand, and quiet way of life, leaves a gap in our ranks which can never be filled.

Admitting of no distinctions among those with whom he came in contact, Charles Henry Holland, '30, was a brother to all who knew him.

Foreword

To carry on the endless chain of memories, to write another year in the History of Rhode Island State College, is the aim of this, the Thirtieth Volume of The Grist.

At the same time to make a mark upon the staff of Father Time, the staff that serves as a perpetual jogger of memory, that will last until we, the Class of 1930, meet again in the great beyond. A mark that will get deeper year by year as we look back upon these four years soon coming to an end, four of the happiest years of our lives, which this book will attempt to serve as an interpreter for.

HONORABLE NORMAN S. CASE
Governor of Rhode Island

Governor Case's Message

Wealth is the goal of most men. Some desire power, political or social; a few want distinction in literature or art and a very few will be satisfied if they can do some good in the world.

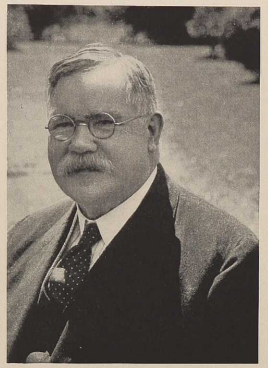

All of these objects are more or less interwoven, so that the inspirations of men are multiplex, but they all can be summed up in the one word "success." They seek to accomplish some definite thing in life, and to do so they will have to be both diligent and persistent. The quality that is most needed is steadfastness of purpose. Many become discouraged just before reaching the point of achieving their purpose.

Harsh though the judgment of the world may seem to be, it is, nevertheless, just. I suggest that you start out in life with right principles. You must be honest and true in spite of all discouragements. A single lapse will destroy the good reputation you may have established, but if you remain steadfast to right principles you either will succeed in your purpose or you at least will have the satisfaction of knowing that you have fought a good fight. Chance plays its part in success, but those who deserve and win it, strive, watch, and continue steadfast.

At Kingston you have laid a substantial foundation. The world is before you and as you go out into it do not forget that Dr. Edwards has shown you the way to your desired goal. His interest in you and this institution is deep. Steadfastness of purpose has been his aim and that of his competent assistants throughout your years here. I congratulate Dr. Edwards, the faculty, and this class upon the commendable record made and entered upon the books of Rhode Island State College.

Norman S. Case
Governor

Providence, R. I., April 2, 1930.

"We'll Cheer for the White and Blue"

THIS book is different from the usual book that one finds on the book-shelves of one's home. It is an intimate and personal record of a crucial period in the lives of those now grouped together as Rhode Island State College. In a sense we are all authors of it. In a sense we are the only readers the book is intended to reach. It will be stored away in the personal belongings of the present group as they disperse, and in the years to come it will be brought out to revive and rekindle memories of the individuals and the group as it lived and moved in the earlier day.

But it will also renew the picture of the college of the day when you *were* the college. What will that picture be? Will it be merely a blurred succession of petty occurrences suggested by individual faces as they pass in review? Or will it possess a unified coherency, beginning in a definite scheme of life and widening out into adequate mental and spiritual growth and achievement? In the perspective of the years, will the small and petty details fade out into a unified picture, characterized by dignity of outline, brilliant with the colors of youthful friendships, and glorified with spiritual vitality and meaning?

The answer lies with us here and now. These characteristics will appear then just in proportion as we now animate and inform our lives with them. That appears fine and beautiful in retrospect to which we have given that which is fine and beautiful in ourselves.

"We'll cheer for the white and blue!" Well, in the years to come, will we? The strength of a college lies in the loyalty and love of its alumni. And that loyalty and love—spontaneous, eager, genuine—is generated and maintained by steady memories of a college life exalted by high endeavor and noble companionship.

Reader of Twenty Years from Now, as you go over the pages of this book may beautiful memories of today glow in your heart! may the twenty years roll away from your shoulders, and may your lips once again with youthful enthusiasm "Cheer for the White and Blue."

In Departing

Now, while the Future beckons,
Backward we bend our gaze,
Over the nights of laughter;
Over the gladness of days.
Hours that for us, now, are over,
Sped years that come not again,
Memories that bring to the parting
A sadness akin to pain.
Loath are we now to leave it—
Wisdom's familiar face.
We turn; we follow the Future,
For linger here we must not.
Behind us—the past with its pleasures;
Before us—we know not what!

In the life of Rhode Island State College, the Class of 1930 is about to enter its record of fine achievement which our members have made for our Alma Mater. Scholastically, our class has maintained a standing which it might well be proud of. Beside this, our class also provided fine leaders for extra-curricula activities.

Fair play and sportsmanship have always characterized Rhode Island athletic teams, and aside from the manly spirit which our class has upheld, it gave to our Alma Mater one of the best football teams our College has ever had.

Our social functions have been successes in all respects, the Soph Hop and Junior Prom adding much to the dignity and esteem which our College enjoys throughout the state.

During our brief stay in Kingston we have made friendships which we will always cherish and hold dear. However, we are now passing one of the milestones of life. In the days to come, may we meet with the same measure of success that has characterized our College life, and thus bring honor and glory to our Alma Mater.

FREDERICK STEPHEN ACKROYD, A X A
Providence, R. I.
"ACK," "FRED," "SCOOP" Business Administration

Basketball (1, 2, 3, 4); Captain (1 and 4); Baseball (1, 2, 3, 4); R. I. Club (3, 4); Class President (3); Junior Prom Committee; Advertising Manager, Rhode Island State College Players; Economics Club (1, 2, 3, 4).

Fred, better known as "Ack," has played a rather important role in the activities of Rhode Island since 1926. On the court as a pivot man, he has endeared himself to the student body through his ability to get the ball and put it through the hoop. As a pitcher on the nine, his ability to get the ball by the batter in the pinches has won many games for Rhode Island. He has not confined his activities to the sports alone, but has played a prominent part as a journalist in putting the college before the public. On social committees and as a class officer, he has shown his worth.

Always of a cheerful and pleasant disposition, Fred has made innumerable friendships during his four years at R. I.

WALTER WILLIAM ANDERSON, A X A
Pawtucket, R. I.
"ANDY," "WALT" Business Administration

Track (1, 2, 3, 4); R. I. Club (3, 4); Economist's Club (1, 2, 3, 4); Junior Hat Committee (3); Student Council (4).

Introducing Andy, our congenial classmate from Pawtucket. Andy came to Rhode Island in quest of knowledge, and what he doesn't know, about Business Administration, is not taught at Rhody. Walt has participated in all sorts of activities, and has made an enviable record as a student, athlete, and a darn popular boy. We all wish him the best of luck in whatever he decides to do.

JAMES WILLIAM ARMSTRONG, Σ A E, Φ K Φ
Providence, R. I.
"JIMMIE" Agriculture

Beacon (1, 2, 3, 4); Campus Editor (3); Editor (4); Grist; Track and Cross Country (1, 2, 3, 4); R. I. Club (4); Aggie Club (1, 2, 3, 4); Pres. (4); Inter-collegiate Livestock Judging Team (2, 3); R. O. T. C. Band (1, 2); Sergeant (2); Scholastic Honors (1); Interfraternity Basketball.

Jim, the editor, president, judge, athlete, and honor student — one sees at a glance how versatile he is. Perhaps he is best known as editor of our weekly paper, "The Beacon." His activities are varied and numerous at all times, even including Co-education in his Senior year.

Jimmie's jokes and witty replies are a continuous source of fun and enjoyment for his associates. He is always busy as shown by the list of his activities and the fact that he has worked his own way besides. One may wonder how he has time to do so many things well. One of the secrets of his success is that he can apparently sleep through an entire lecture and yet absorb it all (probably by osmosis).

I think that we can safely bet on Jimmie in the future to accomplish great things for old R. I.

GEORGE ELLIS ARNOLD, Φ Σ

Wakefield, R. I.

"GEORGE" Electrical Engineering

Elect. Eng. Society.

When George came to Kingston four years back, from "down" the line," "Rhody" was gifted with one of those rare personalities in which gentleman and student are combined. Realizing his ability, one is not surprised that he is so successful in his college work, although most of his leisure time is spent in "tickling the ivories" for a local orchestra, or playing "private secretary" for the South Kingstown High School.

In addition to all this, he still finds sufficient time to act as "guardian of the bath-house" at the Pier during the summer months, and "swing a mean racquet" when the occasion demands.

Our sojourn with you has been one of utmost pleasure, and it is to our advantage to have you as a friend.

GERALD EDWARD BEAN, Σ A E

Kingston, R. I.

"JERRY" Chemical Engineering

Cross Country (1, 2, 3, 4); Captain Cross Country (4); Track (1, 2, 3); R. O. T. C. Band (1, 2); R. O. T. C. (3); First Lieutenant (4); Rifle Team (1, 2); Orchestra (1, 2); R. I. Club (3, 4); Kingston Players (2, 3); Chem. Society (1, 2, 3).

Had Kipling lived today, Jerry's educated underpinnings would have been more than sufficient inspiration for another famous bit of poetry, not this time entitled "Boots," but "Legs." In short, he has been getting wonderful training for a future career as a Mail-man by being one of Mr. Tootell's mainstays on the Cross Country Team. He is always in the best of spirits. Even when he is running, he has time to smile down (down is used advisedly) at any whom he chances to pass. Of him, we may say, "a la Chesterfield," in Kingston its College, in Cross Country its Bean.

RITA FRANCES BERGIN, X Ω

Waterbury, Conn.

"RIT" *Wittiest Girl* Home Economics

Freshman Banquet Committee; Glee Club (3); House President (3, 4); May Day (1, 2, 3); Home Economics Club (1, 2, 3, 4).

Here is the girl with the sparkling Irish wit, who, with her irrepressible good nature has made numerous friends on both sides of the campus. But why the sudden interest in week-ending in Providence?

Rita is very fond of teaching (?) especially demonstrating left handed button-holes.

As to her future plans, Rita is keeping those in the dark, but whatever they may be, we wish her the best of success.

Ruth Christine Bishop, Σ K, Φ Δ

Providence, R. I.

"Tommie" Home Economics

Hockey (1, 2, 3); Women's Student Council (2, 3, 4); Secretary-Treasurer (2); Vice President (3); President (4); Assistant Manager Girls' Basketball (3); Manager (4); News Staff Sophomore Beacon (2); Chairman Social Committee Y. W. C. A. (2); Junior Hat Committee (3); Y. W. C. A. Cabinet (2); Delegate W. S. Council, Storrs, Conn. (2); Waterville, Maine (3); Pianist, Commencement Play (1, 2); Glee Club (4); Phi Delta (3, 4); Home Economics Club (1, 2, 3, 4); May Day (1, 2, 3); Chairman of Junior-frosh Picnic.

Who is it we have seen in the midst of our social and athletic activities the past four years? To be certain it is our Tommy! It is she who is always ready to accept responsibility and in the end portrays ingenuity, which is unsurpassed by her classmates.

Tommie's friendliness and generosity are extended to all who are in need, which makes her one of the popular members of the class.

Barbara Bradford Brand, Σ K, Φ Δ

Rumford, R. I.

"Bobby," "Brandie" Home Economics

Best Dancer
Most Versatile

Freshman Banquet Committee; Sophomore Hop Committee; Junior Prom Committee; May Day Festival (2, 3, 4); Glee Club (2, 3, 4); Soph Beacon, Assistant Editor of Co-ed Beacon (2, 3); Phi Delta (2, 3, 4); Property Mistress (4); Freshman Reception Committee (4); Chairman Phi Delta Play and Dance (4); Art Editor Grist Board (4); Home Economics Club (1, 2, 3, 4).

"Best Dancer," "Most Versatile!" The senior class certainly knew whereof it spoke when it placed these titles on Brandie. Bobbie Brand and dancing are almost synonymous. Her scholastic record has been an enviable one, and with her ability as an artist, she holds a unique position, for her inspiration has been the source of the many posters she turns out for every social event. She is equally competent at the tea table or ferroting out properties for Phi Delta — to say nothing of manufacturing sporting goods. (Remember those "B" jerseys?) We have a feeling Bobby is going to duplicate her successful college career when she goes out into the world. We will be watching you, Bob, and good luck.

Susan Louise Brucker, Δ Z

Westerly, R. I.

"Sue," "Sammy" General Science

Tennis (3); Basketball (1, 3, 4); Vigilance (4); Debating (2); Debate Council (4); Class Secretary (4); Chemistry Society (2, 3, 4); Chem. Lab. Association (3).

Sue is a Chemist through and through — and for this reason is a god-send to the struggling Frosh and Sophs. Of course you will understand, she is not entirely business-like, and not at all a grind, for you'll find her at nearly every social function — and her love of fun is a welcome addition to all our activities. On the basketball floor her good work in the center court helped the Seniors beat those snappy Freshmen.

Her good nature, pluck, fairness and personality will carry Sue far in her chosen line, a line which is so seldom attempted by women.

WILLIAM JOHN CALLAHAN, A T Γ, Φ K Φ
Fall River, Mass.
"BILL," "CAL" Mechanical Engineering

M. E. Society (3, 4); Junior Prom Committee (3); Military Ball Committee (4); Officers Club (3, 4); R. O. T. C., Corporal (2), Sergeant 3, Lieutenant (4); Student Council (4).

"Bill" comes from Fall River, but that's about the only thing that anyone can hold against him. His undoubted success as a math student soon won him recognition and as an assistant in the math department he has won the gratitude and respect of the puzzled Frosh. No one could ever call "Bill" a co-edder, but he has had "affaires de coeur" though of a flavor somewhat foreign to Kingston soil, which have, nevertheless, been watched with considerable interest by his collegiate cohorts. Well, the best of luck "Bill!"

EVE GERTRUDE CALLAND
Pawtucket, R. I.
Home Economics

Glee Club (2, 3, 4); Commencement Play (1); Home Economics Club; Class Basketball (3, 4); Manager Baseball (2); House Secretary (2); Secretary Glee Club (3); Class Hockey (2, 3, 4); Baseball (1, 2, 3); House President (3, 4).

"A Jolly little fellow is he"—and a jolly little girl is Eve! Smilingly, she entered college and smilingly she leaves. Ever brightening the way for her fellow-students, Eve has won a place in our hearts forever. She has been active in all sports and has willingly done all jobs assigned to her. That she will be successful we are quite confident.

Our best wishes go with you, Eve.

EDMUND DANTE CAPPUCILLI
Warren, R. I.
"ED," "CAPPIE" Business Administration
Best Dancer
Most Collegiate

Freshman Football; R. O. T. C. Band (1, 2); Corp (2); Student Band (3); Track (1, 2, 3, 4); Dramatics (3, 4).

Cappie was a business man before he entered college, as anyone who has submitted to his tonsorial treatments will testify. In fact, Ed is Pridy Rawdon's only rival in the art of "a shave and a haircut." His activities however, prove that work and play are the atoms that make up the molecule of success. The greatest of luck to the "model collegian" of our class!

ESTHER PEABODY CARY
Bristol, R. I.

"Et" Home Economics

Hockey (2, 3); Chairman of World Fellowship of Y. W. C. A.; Glee Club (2, 3); House President (4).

There goes "Et," who is one of the blonds of the class of '30. She is a member of the Dish-washing gang of South Hall. The dishes move mighty lively, so we know "Et" to be a rapid worker. Our classmate is a good student as shown by her fine record.

Home Economics and Bacteriology have claimed "Et's" attention. Her future is as yet undecided, but we feel sure it will be a success.

ARTHUR LOUIS CATUDAL, Φ B X
Providence, R. I.

"CANNON," "SKIPPER" Civil Engineering

Football (1, 2); Track (1, 2, 3); Orchestra (1); Sophomore Hop Committee (2); Junior Prom Committee (3); Student Council (2); Polygon (3, 4); C. E. Society (1, 2, 3, 4).

"Cannonball," the impersonator, humorist, and scholar, lays further claim to versatility through the development of original scientific and mechanical ideas.

Art's ability to personify anyone, his eccentric character, molded together with his scholarly way, has enabled him to make a host of friends. Needless to say "Cannonball" is a member of the combination of "Catudal and Mainelli Inc.," originators of many a humorous remark.

With the above qualities in mind, we can't help predicting a successful future. "Sail on Skipper!"

GEORGE RITTENHOUSE CHAMPLIN
Kingston, R. I.

"RIT" General Science

R. O. T. C. (1, 2, 3, 4); Sergeant (3); Captain (4); Military Ball Committee (4); Kingston Players (2, 3, 4); Treasurer (4).

George is well known to all of us as the able assistant at the Village P. O., and he can sure juggle the mail bags, packages or letters. Being Post Master he also knows about all the doings of our local town. He is also well known to many Frosh and Sophs as a stern and stalwart Captain in the Army. Fierce and loud are the commands that he barks at the careless Frosh.

But above all, George shines brightest as a chemist, and we may expect to see our old classmate's name in Who's Who as one of the great chemists of our generation.

RALPH BURDICK CORNELL, Φ Σ

Westerly, R. I.

"HAWK" Civil Engineering

Officers' Club (3, 4); Military Ball Committee (3); C. E. Society (2, 3, 4); Baseball (1); Track (2, 3, 4).

"All the world loves a lover," applies to this gentleman. "Hawk's" interest in his fellow-men and their doings always has been apparent to those who really know him and appreciate his natural aptitude for helping others. Furthermore, so intense is his love for sport that he is never able to speak above a whisper following any exhibition of Coach Keaney's athletes. At the present writing, we have been unable to learn whether it was his good dancing, his gentlemanly manners, or his ever-present optimism and cheerfulness that first attracted Florence.

HENRY JAMES CRAGAN, P I K, T K A, Φ K Φ

Mystic, Conn.

"JOE," "CREGE" Business Administration

Best All-Round *Most Versatile*

Varsity Football (2, 3, 4); President, Men's Student Council (4); President, Lecture Association (4); Tau Kappa Alpha (3, 4); Scholastic Honors (3, 4); Scabbard and Blade (3, 4); Officers' Club 3, 4; Economist's Club (2, 3, 4); R. I. Club (2, 3, 4); Phi Kappa Phi (4).

Henry James, and his last name is Cragan! But who would have guessed it, for while at Rhody he has had no other "handle" than good old "Joe."

This Versatile Youth, as he was voted by the Senior Class, sure has lived up to his name. He has come out on top in all his undertakings. In his Senior year he proved his athletic ability by his startling performances on the gridiron. Scholastically, he has done well enough to have Phi Kappa Phi honor him with their invitations, and socially, he is one of the most popular men on the campus, being liked by all.

Everyone wishes "Joe" success and wonders how they will greet him next year; as a Lieutenant of Aviation, or Captain of Industry.

ELMER ELIOT DAVENPORT, Θ X

Roslindale, Mass.

"ELM," "WANSKA" Civil Engineering

Football (1, 2, 3); First Lieutenant (4); First Sergeant (3); Corporal (2); Scabbard and Blade; Officers' Club.

Elmer hails from the big city of Roslindale, of which Boston is a suburb, and is another mainstay of Lanza. When he landed here in Kingston four years ago, his hearty laugh and uncanny wit immediately became known to Eds and Co-eds alike. Due to his congeniality and earnestness of purpose, we are sure he will be a success in the Engineering world when he leaves us in June.

Good luck, Elmer.

DONALD KEITH DAVIDSON, Θ X
Brockton, Mass.
"DON," "RAJAH," "DU-DAB" Business Administration

Rope Pull (1); Freshman Football (1); Freshman Track; Varsity Football (2, 3, 4); Varsity Track (2, 4); R. I. Club (2, 3, 4); Sec.-Treas. R. I. Club (3); Soph Hop Committee; Junior Prom Committee; Military Ball Committee (4); Chairman, Commencement Ball Committee; Officers' Club (3, 4); Glee Club Orchestra (2, 3, 4); Interfraternity Basketball (1, 2, 3, 4); Polygon (4).

There goes "Rajah," the big boy of our campus. Tall! Handsome! Exquisite! And talk about versatility, there is nothing that he can't do and do well. Gridiron or track, he is an artist. Go to any dance and if he isn't there tooting the meanest sax that you ever heard, he is head of the music committee. "Don" has made college worth while by taking the Engineering course as well as Business Administration. Just talk to "Don" and proclaim, as we all have done, that he is our conversationalist, superb.

JOSEPH RAYMOND DAVIS, Λ X A
Warren, R. I.
"JOE," Civil Engineering

Football (1, 2, 3, 4); Baseball (1); Track (2); Rope Pull (1); Glee Club (1, 2, 3); Phi Delta (2, 3, 4); Property Manager (4); C. E. Society (2, 3, 4); R. I. Club (4); Soph Hop Committee; Soph Picnic Committee; Junior Prom Committee; Polygon (3); Managing Editor of Grist.

Here we have Warren's contribution to the class of 1930 and Joe has certainly put Warren on the Kingston map, in every line of endeavor. He is a student, athlete, and all around good fellow, as can readily be seen by his long list of activities. If Joe enters into his profession with the same tenacity and diligence that he did as an engineer at Rhode Island, we feel sure that he will be a success, and we wish him the best of luck.

ALEXANDER DE PARI
Providence, R. I.
"LEFTY" General Science

Baseball (1, 2, 3, 4); Football (1); Bible Class (2, 3); Biology Society (3, 4).

"Lefty" is our jolliest of the jolly. Knowing his own capabilities, he soon found out that most things are "easy" or at least could be accomplished "one hand." He was an ardent devotee of sports, both indoor and outdoor. The hardest man to beat in the former, he was also quite well known as a baseball and golf player. We take our hats off to the man who can go one week without Italian cooking and still retain his sympathetic smile.

GENELLA MARY DODGE, Δ Z

Bridgeton, Maine

"GENE," "CITRON" Home Economics

Student Council (1); Y. W. C. A. Delegate to Maqua (1); Varsity Basketball (2, 3, 4); Varsity Basketball Captain (4); Class Debating (1, 2); Class Basketball (1, 2, 3, 4); Class Hockey (1, 2, 3, 4); Class Baseball (1, 2); Home Economics Club.

Here is our famous Home Eccer from Maine, and can she cook! Besides excelling in purely domestic arts, Gene has been our mainstay center on the varsity Basketball team ever since she towered above the opposing center in her freshman year. An athlete, a master cook, and a number-one sport!

Gene's future intentions are unknown but we do know that New Jersey holds a strong interest for her.

HOWARD ANDREW DROITCOUR, Φ M Δ, Φ K Φ

Edgewood, R. I.

"HOWIE" Mechanical Engineering

Most Brilliant
Most Scholarly

Scholastic Honors (1, 2, 3, 4); Phi Kappa Phi (4); Captain Freshman Debating Team (1); Inter-fraternity Debates (1, 2); Freshman Track (1); Sophomore Class President (2); Soph Hop Committee (2); Glee Club (1, 2, 3, 4); Assistant Manager (2, 3); Manager 4; Varsity Track (2, 3, 4); R. I. Club (2, 3, 4); Inter-fraternity Basketball (1, 2, 3, 4); Mechanical Engineering Society (2, 3, 4); Secretary-Treasurer (4); DeMolay Club (1, 2, 3, 4); Vice-president (2); President (4); Junior Prom Committee (3); Officers' Club (3, 4); Lieutenant R. O. T. C. (4); Military Ball Committee (4); Polygon (4).

Howie needs no introduction to us, as he has made an enviable record at Rhode Island. While at R. I. State he has not confined his attentions to any one phase, and he has been successful in all endeavors. We feel confident that he will make good our belief that he is most likely to succeed. Good luck, Howie, and may you succeed as an engineer as you have at Rhody.

CLARENCE LEONARD ELMSTROM, Φ Σ

Eden Park, R. I.

"BILL," "ELKY" Applied Science

Track (1); Football (2); Chemical Society (3, 4); Biological Society (3, 4); Rope Pull (1).

"Bill's" motto has been "Don't let it worry you." His pleasant personality and ever-willing desire to help others has won for him a host of friends.

Bill is an athlete of no mean ability. When he entered "Rhody" four years ago, he brought with him the distinction of having won the New England Amateur Bicycle Championship. His bicycling career has kept him from performing on the gridiron, the diamond, and on the cinder path, where he is equally at home as he is on the board track of a cycledrome. Some day we hope to hear of "Bill" as a great botanist or perhaps a second "Clarence Chapman." "Bill" has gone to all of our social events and his profound weakness for the fairer sex is shown by his many trips to Providence to see his fair one.

Here's luck to you wherever you are and whatever you pursue as your life work.

MICHAEL JOSEPH FAELLA, A T Γ
Providence, R. I.
"MIKE" General Science

Track (1, 2); Cross Country (1, 2); Chemical Society (1, 2, 3, 4); Treasurer (4); R. O. T. C. (1, 2).

Technical High School endowed us with this winning youth in the year 1926, and he has continued to be a source of constant pleasure to us during his four years sojourn here at Kingston. His studious habits and decorous demeanor are not the best of criteria to judge his personality by as we, who know him, have found him congenial and entertaining at all times. We can wish you no more than a future of luck and prosperity as a chemist, "Mike."

TIBOR MARTIN FARKAS, Σ A E, Φ Δ
Linden, N. J.
"TIB," "TIBBY" Business Administration

Phi Delta (1, 2, 3, 4); Glee Club (2); R. I. State College Players (3); Manager Freshman Basketball (3); Sophomore Hop Committee; Economist Club.

Here he is, "Tib," the most original entertainer, hailing from the State of mosquitoes. Never is he satisfied with the general trend of affairs, and always devising new things and doings. Many are the humorous tales he tells of his experiences as an ordinary seaman, running to Panama or Egypt.

With his never failing wit, he has sailed through college, gathering a host of friends. Always ready to lend a helping hand to anyone in need, he has smoothed the road for many.

Always a loyal supporter of the Saturday night dances, he has turned to support the system of Co-education. Luck to you, "Tib," and may life ever be a calm sea with fair winds.

CHARLES EDWARD FLAHERTY, P I K
Barrowsville, Mass.
"CHARLIE," "NICK" Business Administration

Scabbard and Blade; Baseball (1, 2, 3, 4); Captain (4); Football (3, 4); Officers' Club (3, 4); Vice President (4); Economist's Club (2, 3, 4); R. I. Club (3, 4).

Charlie rates as one of the outstanding athletes of our class. Anyone who saw this lightweight halfback weave through the Conn. Aggies' defense last November, can testify that it was a real triumph of ability and brains over brawn. His ability on the diamond is also shown by his being captain of the varsity and the club's leading hitter.

Scholastically he has done extremely well as is shown by his success in instructing his fellow students in accounting. In the army he has gained an enviable record as a Lieutenant, and socially, well, Charlie's quiet and unassuming manner certainly accomplishes great things with the "fairer sex."

In short, this youth's well balanced combination of personality, ability and a host of friends are sure to carry him to a well deserved success in life.

Starting off with a bang upon entering college and setting a record for four years that will not be equaled for a long while to come, Joe graduates with the distinction of being the first one to obtain a B.S. in Co-eding at Rhode Island.

His debating activities were just a side-line as he reserved his real talent for use in the "Sessions" over which he ruled with an iron hand.

As an engineer, Joe is going to improve upon or replace every kind of mechanical contrivance now upon the market.

We expect great things from the one and only "Joe Pos."

New Hampshire sent us this quite pensive youth, but his geniality has won for him many strong, enduring friendships.

Economically speaking, he was one who derived the optimum returns by mixing his studies and pleasures in the proper proportions. His pleasures did not include the West side of the campus, but it is believed that it is only because he is a faithful one,—and yet who knows?

Well "Pop," your sojourn here has been a pleasant one no doubt, and we hope it will continue to be so as you step into the Chemical world. Here's luck to you.

"If at first you don't succeed, try, try again" would certainly be an appropriate motto for Ro.

"Gig" started with the class of '28, but like many others he made the mistake of mixing too much social life with his education. The result was that he had to join the school of hard knocks to prove that he was capable.

If persistency and stick-to-it-tiveness are any indications of one's success, then we have no fear of Ro making a place for himself when he leaves us to go out in the cold, cruel world.

"Hal," the handsomest man in the class, and the envy of all the Co-eds. Having only recently come into the limelight, and being bewildered with movie contracts, and the like, we imagine Hal's next address will be Hollywood. Seriously, Hal is an excellent student, and an extremely quiet and unassuming fellow. He spends his spare moments working in the Zoology lab. We shall no doubt hear of his accomplishments later in the medical profession.

Peggy Pierce or Danny Boone, as she is known, is quite surprising. She appears meek and mild, but upon closer acquaintance — Sh! What depths! The excavating and exploring expeditions through the Great Swamp were interesting to say the least. In addition to all this, she is a wild, desperate automobile driver — ask any State Cop. Peg is an all round athlete and excels in hockey, basketball, swimming and canoeing. A perfect sport and dependable as they make them!

ALBERT EDWARD POWELL, Φ M Δ, Φ Δ

Track (1, 2, 3); Football (1); Glee Club (1, 2, 3); Assistant Business Manager Phi Delta (1, 2, 3); Business Manager (4); Chairman Soph Picnic Committee (2); Chem. Society (2, 3, 4).

Burt came to us, a lonely little boy from Pascoag. But, being a born mixer, and a good looking, socially adept fellow, he soon learned the ways of the campus. A natural Co-edder, he was immediately popular on the West side of the campus. But it is now hard to say on which side he is better liked.

Burt has learned the depths of quantitative and qualitative chemistry; and although they were a little deeper than he expected, he is now ready to do some real work. He may not be the richest member of our class, but he will surely be one of the happiest.

Who's that? Why, can't you see he's our "Aggie" — one of the big "four"; a student when the necessity arises, but a far more successful man of the campus; a delver into all the extra-curricular activities!

Our "Min" is going to disprove Malthus' theory of population for he is determined to apply his knowledge of agriculture to the soil, and thus supply the world with those things which are fundamentally necessary for our well-being. It is to him we look for our future prosperity.

ALPHONSE WALTER RAVANELLE, A T Γ

Woonsocket, R. I.

"PHONSE," "RAVVY" *Wittiest Man* General Science

Freshman Banquet Committee; Track (1); Glee Club (1, 2, 3); Soph Hop Committee; Interfraternity Basketball (2); Student Council (4); Chairman, College Welfare Committee of S. C. (4); Chemical Society (2, 3); Biology Society (2, 3, 4); Polygon (4); R. O. T. C. (1, 2); Chairman, Junior Prom.

Introducing Ravvy, the smallest and peppiest Senior of the class! In spite of extra-curricular courses, Glee Club work, and "down-the-lining," Ravvy has always managed to hit his courses with plenty of his characteristic Woonsocket vigor. His favorite course was Psych. and Ed., where he patiently waited to insert his wise-cracks between Dr. Carroll's sentences. Perhaps it was because of his steady chatter that he has the title of the wittiest Senior. "Phonse" expects to be a "tonsil remover." May he find an abundance of tonsils to remove.

PHILIP SCHAFFER, A E Π

Pawtucket, R. I.

"PHIL" Electrical Engineering

E. E. Society (3, 4); Vice President (4); Interfraternity Basketball (4); R. O. T. C. Corporal (2); Track (1).

Four years ago, Pawtucket selected from its ranks a certain individual, noted for his wit and agreeable sense of humor, and sent him to Rhody to amuse the fellows here for the duration of his college career. Phil, the Pawtucket candidate for the Nobel humor award, amply fulfilled all expectations that his home town harbored for him as a humorist. But Phil's specialty was not wit, for he decided to follow the E. E. course as a major and allow his humor to be ranked as a minor.

Phil has decided that he will shock the world with the spark of life with which the E. E. course has charged him. As he would say, "The odds that I will make good are even."

"CHRIS" Home Economics

Most Thorough Lady

May Day (1, 2); Home Ec. Club (1, 2, 3, 4); Glee Club (4).

Four years ago, there came into our midst our own "Chris," who needs little introduction, for the very fact that she is considered the "Most Thorough Lady" in our class speaks for itself. Perhaps you may have seen her cutting figures down on "Thirty," gracefully gliding over the ice, which reveals an outward nature for the best of life. Chris's disposition remains calm at all times, and in her congeniality one finds the essence of true companionship.

"Bert" is one of the smallest members of our class, but what is size? She is full of pep, and a great talker. When it comes to being a good sport, Bert is right there.

Her generosity will long be remembered by the girls in Davis Hall by Bert's return from one of her week ends at home, ladened with pink cake.

Home Economics has drawn the interest of this small person, and we know by the results that she will be a success in her future work.

"SPAD" Electrical Engineering

Track (1, 2); E. E. Society (3, 4); Student Branch A. I. E. E. (4).

This serious young man is one of the "train chasers" from Providence. After his "pass-on" from Tech., Spad decided to come to Rhody and join the E. E. squad in their play with "volts" and "Amps," under "Andy's" leadership. He is possessed with an analytical frame of mind, and under his methodical attacks, the various engineering problems have met defeat. Although "Spad" never neglects his studies, he finds time to participate in his favorite indoor sports,—"bridge" in Kingston, and "?" in Providence.

"Spad" is deeply interested in engineering and some day we shall expect to see him in a responsible position.

KENNETH KRUSEN SPERL

Rope Pull (1); Chem. Society (1); Rifle Team (1); Track (1, 2, 3); Electrical Engineering Society (1, 2, 3, 4); President E. E. Society (4); Student Member of A. I. E. E.

"K. K's" home is Newton and he received his high school training there. "Ken" is frequently heard defending the merits of his home town against all comers.

"Ken," having had practical experience in electricity, decided to continue his study of that course here, and, as his record shows, he was successful. His popularity is affirmed by his election to the Presidency of the E. E. Society.

If "Ken" hits the bulls-eye in life as hard and as often as he did in his freshman year, there will be no doubt of his success.

HAROLD HOSBACH STEINLE, Δ Α Ψ

"HON," "BUNNY," "VON" Business Administration

Who is that sophisticated little gentleman strolling across the campus with several books under his arm? Why, he is none other than our friend "Hon" Steinle, eagerly in search of knowledge. But, hold on a minute; let us not form our conclusions too soon. "Hon" is not one who would be content with all study and no play. There isn't a social event or athletic contest that would be complete without his presence. Likewise our Grist Board would not function so smoothly without his guiding ability as Business Manager.

His career is as yet indefinite, but we feel sure it will be a success.

To the land of the "bean" and the "cod" we owe our thanks for sending us "Alcibiades."

"Sy" has devoted a good part of his time to extra-curricula work and at the same time has managed to acquire grades which are not far below the standards of Phi Kappa Phi.

"Sy" has made many friends by his part in organizing the Student Band, and by his playing with "Baker's Nite-Hawks," who furnish Down-the-line amusement for adventurous college students.

With the qualities which this youth possesses, the medical career he has planned for himself is sure to be a successful one.

Just another chemist known to his fellow-sufferers in Colloidal as Albert, the Suteranian. But Al's right there, ready to crack a joke or beaker with the same effortless non-chalance. Al has been spending his Autumn afternoons wrapped in mole-skins and mud for the last four years but has always managed to recuperate in time to throw the javelin and shot in the Spring season. Although his athletic endeavors have taken much of his time, they did not affect his studies. Indeed, he has made a definite success of his college career. Here's luck to you, kid, and plenty of it.

Here we have Red, a product of Maine both in physique and mentality. Coming to R. I. in 1924, Red thought the Military atmosphere of Norwich more to his taste and transferred there for a year. However, the glamour of Rhody drew him back and to all of us he is a welcome and worthwhile member of the class of 1930. Red has engaged in many activities and is well liked by his classmates. Being greatly interested in aviation, he intends to go into that field after graduation, and we all wish him the best of luck.

Strong, silent men are hard to find these days, yet for nearly two years did such a one move serenely among us on the campus. Suddenly there came a whisper, "whence comes this man of military mien?" You see Charlie decided he was going to be a soldier and from that time on he got up early to put "reveille" on the victrola. Well, we all know what happened—he organized and put over a great Military Ball. Don't worry boys, when the last roll is called, "Major" is at the top.

Vially—remarkable for diminutiveness and force of personality, as well as a happy, hustling disposition! Just try to keep up with her! This year, Vially's chief interest has been off campus, but in her first three years she rated one hundred per cent in "eding." As to her future,—we doubt not that the bliss of domesticity will soon claim her.

Yes, ye unbelievers, this is a pictorial reproduction of our "Hammy," the Einstein of Class '30. His transmutation from a naive frosh to an inexplicable senior is the final proof that the alchemists were right.

"Hammy" delights in delving into such recondite subjects as the Tesla-Luminescence Spectra and the artificial disruption of the nucleus of the atom. If he can survive the hemp cigars donated by his friend, Prof. Hetherington, we feel sure that he will rank eventually with the leading physical chemists of his time.

It did not take Rhody long to become acquainted with Paul, his friendly grin, and his conscientious work both in college classes and activities. Unfortunately for R. Moreover, through his work as Physics Lab Instructor, he soon became known to us all as "Prof." Whenever anything goes wrong, whether it be a basketball shot, a math problem, or trouble with the Ford, Paul casually remarks "That's bad," and immediately remedies the fault. "P. B."'s declaration, "I'm no co-edder!" doesn't worry us when we think of the ease with which he has made so many lasting friendships on the campus — and elsewhere.

Class History of 1931

ERIC G. OSTERLUND	*President*
BARBARA L. KENDRICK	*Vice-President*
ROBERT S. SHERMAN	*Treasurer*
VIRGINIA LOVEJOY	*Secretary*

As the Class of 1931 advances on the way to its final destination, it leaves eradicable marks of successful enterprise along the path. It has steadily blazed its way in all branches of endeavor to new and greater heights. It has presented able men and leaders in scholarship, athletics, dramatics, and the numerous other activities; men never to be forgotten for their grit, stamina, and sportsmanship.

The first year with all its rules and regulations, passed quickly, leaving memories of one of the most successful Frosh teams ever to be developed — the first one to beat Conn. With this milestone passed, we stepped right into the serious role of being Sophomores, and proceeded to establish a concrete reputation by making the Soph Hop. After this, we continued unabated to swell our list of successful enterprises. In all fields, Ed and Co-ed, the Sophs were prominent for their ability and accomplishment.

But our task is far from finished. Our greatest undertakings still lie before us. And we will tackle them with all the vigor and ambition that has marked our trail through the past. Prom time — to make this event our outstanding venture, to make it always memorable, is our task. And to make the final year one that is worthy of Seniors and a class such as the Class of 1931.

The Class of 1932, now half way through its career at Rhode Island State College is establishing a record high above the average. Many of our members are setting a high standard for our name by their efforts in Scholarships, Dramatics, The Beacon, Glee Club, Orchestra, and Athletics.

Entering in 1928, we were the largest class ever to enroll at Rhody, and due to the quality and character of our members we have been able to return this year, still topping the other classes in numerical strength. Our Freshman year seems to have capped the climax in inter-class warfare, for the powers that be considered our class spirit too vivacious to go without reprimand, which reprimand was duly forthcoming at the Assembly following the Sophomore-Freshman struggle; one in which we were decidedly the victors.

Containing as many capable members as it does, our class required the united efforts of all, including the adviser to bring about the successful election of a group of executives.

The annual "Soph Hop" held last December at the new Gymnasium was a brilliant success, conceded by all present to have been equalled by none.

What is greater than all such material accomplishment is the fact that we have shown, and expect always to show, the good old Rhode Island spirit.

ROBERT CRAGAN

Class History of 1933

MARY BESSE	*Secretary*

We, of the Class of 1933, arrived on Campus in September, 1929, as innocent as all the classes before us — But the upper classmen soon set to work educating us. After learning our songs well and studying our Bible faithfully we soon lost ourselves in the student life on the campus. A great quantity of talent has been discovered among us.

The band welcomed our musicians with open arms and the heretofore mediocre orchestra has been developed into one of the finest with our help. The Glee Club also is being ably supported by the Freshman singers.

In athletics we have surpassed many of the past classes. The football team put up some good battles and we pulled the unexpected by defeating the Brown Frosh and the mighty Soph team. We turned in a perfect basketball season, going undefeated and being the first R. I. Frosh team to beat the Aggie Frosh in five years. Our greatest disappointment was in not being able to meet the Sophs. The faculty and the upper classmen have all helped to make this a very busy yet enjoyable year; we look forward to our Sophomore year with the hope that it will equal this year in activity and enjoyment.

ATHLETICS

Baseball

Coach Keaney

With the opening of the baseball season for 1929 we found Coach Keaney with an optimistic outlook. He had on hand six lettermen but was faced with the task of developing a pitching staff.

However, once the season got under way Fred Ackroyd and Alec Hurwitz soon put him at ease. Alec frequently took over the pitching burden and left first base to be taken care of by "Jigger" Lazareck. Bill Trumbull and Paul Winsor formed a steady and dependable keystone combination, while Matty Kearns filled in well at third after "Ted" Pykozs went to the hospital with a sprained ankle.

Charlie Flaherty and Mike Lettieri, playing their first season of varsity ball covered center and left while Szulick and Ernst shared the burden of right field.

The season as a whole was a success though several games were lost due to inexperience. The team won eight of the fourteen games played.

The Schedule

Football

Capt. Lazareck, Capt. Howes

Rhode Island faced the Destroyer Force on Sept. 14th, with her players in the best of physical condition. The first team was comprised of seven veterans and four Sophomores. The outlook for the season was very promising.

Rhody won its first game by a score of 18-6. Much of the play was ragged and for the next week Coach Keaney drilled his men on the fine points of the game.

The next Saturday the team showed the results of a hard week's practice by trouncing Arnold College 19-0.

On Sept. 28th, a hard fighting Rhode Island team went down to defeat before a much heavier Maine aggregation. In spite of their advantage, the best the Pine-tree Staters could do was to score one touchdown, the score being 7-0.

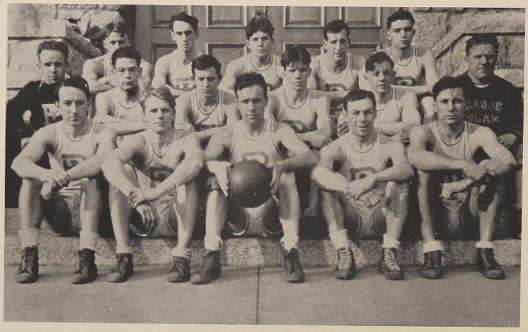

Rhode Island led Brown up to the third quarter for the first time in football history. This team gave Brown the stiffest opposition ever offered by a State eleven. Time and again Coach Keaney's new plays netted long gains for little Rhody. The overwhelming reserve strength of the opponents scored for them two touchdowns in the final quarter, the score being 14-6.

After a two week's lay-off, the team traveled to Lewiston to play Bates. Probably due to the two week's inactivity, and the long trip, Rhody played one of the weirdest games of its history. Long gains were netted almost at will, only to lose the ball within the shadow of the opponent's goal. With but a few seconds to play, Ken Goff received a punt and ran through the entire Bates defense for a touchdown, making the score 6-6.

At this time Rhode Island experienced a series of decisive victories, defeating Lowell Textile 26-6, Coast Guard Academy 26-0, and Worcester Tech 39-0. A smooth working backfield, and an impregnable line were characteristic of the team in each of these contests.

With an enviable record behind it, the team drew a record crowd on Home Coming Day, to witness the game with its ancient rival, Connecticut. Connecticut, with an equally good record, could do little to stop the powerful running attack of the battering Rams. When the final whistle blew and the game was over, Rhody had amassed 19 points to Connecticut's 6.

The irresistible drive of Howes, Kearns, Goff, Cieurzo, and Flaherty, coupled with the defensive power of Lazarek, Cragan, McCue, and Gill, will long be remembered by the followers of Rhode Island sports.

Basketball

With the opening of the basketball season, our prospects for a successful year were not very bright, due to the fact that five of the six letter men were lost by graduation.

After defeating New Bedford Textile by a score of 74-32, the team suffered an additional blow by the loss of Captain Ackroyd who was forced out of the game for the entire season due to a serious knee injury.

Coming back from the Christmas recess, Rhody met with fair success 'til mid-years, defeating Northeastern, Arnold, and U. S. C. G. Academy, and dropping one game to Worcester Tech.

On Feb. 7th, Rhode Island met its first defeat in the new gym at the hands of a strong Brooklyn Polytech team, the score being 36-30. Following this, the team hung a series of defeats on five of its strongest rivals, Boston University, Clark University, Connecticut Aggies, Brown University and Northeastern being the victims.

Traveling to Hartford and Storrs, the following week, Rhody met with defeat on both occasions.

On March 6th, St. Michaels, State champions of Vermont, were overcome by the flashy attack of Rhody's basketeers.

Two days later the final game of the season was played against Brown, at Providence. Poor playing by both teams featured throughout. In the second half, Brown rolled up a lead which the Kingstonians were unable to overcome. The game ended with the score Brown 43, R. I. 28.

Much credit is due Coach Keaney, who moulded a successful team out of mediocre material. The steady playing of Kearns and Tyler was noticeable throughout. Osterlund, Turla, Goff, Winsor, Collison, and Wiggenhauser, all contributed to the success of the season.

Prospects for next year are bright, due to the strong Freshman aggregation, which has gone through the season without defeat.

Track

Rhody's track team for 1929 was somewhat inferior to the team of 1928, yet there was much that is worthy of praise in the season as a whole.

The season was opened on April 27th, with a triangular meet in Providence between Rhode Island, Brown University and Wesleyan. Brown, with the strongest team in recent years, piled up 65 points, as against 50 for Wesleyan and 20 points for Rhode Island. Rhody's best showing was made in the hammer throw event, when Long, Murgo and Bumpus took all three places. Capt. George Cook tied for first place in the pole vault and Paul Cieurzo missed a first place in the shot put by one-fourth of an inch. Russell in the high jump, Collier in the hurdles, and Troy in the sprints were the outstanding men on the Brown team.

On May fourth, Rhode Island nosed out her old rival, Connecticut, by a score of 69 5/6 to 65 1/6. The Connecticut team was led by Chubbuck who accounted for 17 points in a total of five events. The stars for Rhody on that day were Capt. Cook in the pole vault, Chet. Lynn in the 100 and 220-yard dashes, Murgo in the hammer throw, and Bradshaw and Anderson in the high jump and broad respectively.

Rhode Island took fifth place on May 11th, at the Eastern Intercollegiates at Worcester. Joe Murgo was the only first place winner from Kingston, although Cieurzo and Cook made fine showings in the shot put and pole vault respectively. One week later Capt. George Cook, Joe Murgo, and Paul Cieurzo represented the Blue and White at the N. E. I. C. A. A. championship meet, but failed to score. A Freshman medley relay team composed of Deluty, Gleason, Ward, and Roy was Rhode Island's first representative ever to appear in this event. Another note of interest at the "New Englands" was the new record made by Black of Maine in the hammer throw. This new record took the place of the previous one which was set by Coach Fred Tootell when he was at Bowdoin College.

With the experience gained by participation in several indoor meets in Boston during the past winter, Rhody should be represented by a fairly well-balanced outdoor track team in the coming season. Several stars of last year's Frosh team which proved to be a winning combination should also aid in making the 1930 season a success. Meets have been scheduled with Amherst, Brown and Connecticut, in addition to the Eastern and New England Championship competitions.

Coach Tootell

Summary of Track Season

April 20 —Varsity defeated Frosh 103 2/3 - 61 1/3.
April 27 —Rhode Island 20; Wesleyan 50; Brown 65.
May 4 —Rhode Island 69 5/6; Connecticut 65 1/6.
May 11 —Rhode Island placed fifth at Eastern Intercollegiates.
May 17-18—Rhode Island failed to score at New England Intercollegiates.

Cross Country

Cross-country teams are always strong at Rhode Island, such that they can not be described as either good or bad, but only as to the degree of goodness. With only two letter men reporting for the 1929 campaign, Coach Fred Tootell developed a team which won three out of four dual meets and placed sixth at the N. E. I. C. A. A. cross-country run at Franklin Park, Boston.

Brown University was easily defeated over the Kingston course for the tenth successive year. Two weeks later the team went up to Boston and with Capt. Jerry Bean, Roy Hersey and Herman Miner finishing, arm-in-arm, in first place, ran away with that meet. The competition was considerably stronger in the meet with Worcester Tech at Worcester, however, and Rhody was defeated. Capt. Bean took fourth place and was the first Rhode Island man to finish the "long grind." Connecticut was met for the first time in a dual cross-country meet at Kingston and Rhody celebrated with another easy victory. The competition at the New England Championship event was decidedly superior to anything that Rhode Island could offer, yet the men made a good showing by winning sixth place with all colleges represented. The meet was won by a finely balanced team from Bates, although Lindsay and Richardson of the University of Maine took the individual honors.

The results of the dual meets follow:

Rhode Island 22; Brown University 34
Rhode Island 20; Boston University 35
Rhode Island 29; Worcester Tech 19
Rhode Island 25; Connecticut 30

The order of finish of the Rhode Island men at the N. E. I. C. A. A. meet was Bean (18), Miner (27), Hersey (29), Ward (41), Pratt (53), Armstrong (56), and Hathaway (67).

Capt. Jerry Bean, Roy Hersey, and Jimmie Armstrong will graduate ths year, leaving Miner, Ward, Pratt, Goodwin, Hathaway, and Osterlund to carry on the good work next fall.

The Frosh team of 1929 made a good showing against both Brown and Conn. Aggies and should be strong contenders for the Varsity team.

Co-ed Athletics

Co-ed athletics for the most part are confined to intra-mural sports. Class teams are organized in hockey, basketball, and baseball and many exciting contests result.

In the fall the girls enjoy field hockey and many are the bruised shins that result from this exciting and strenuous game.

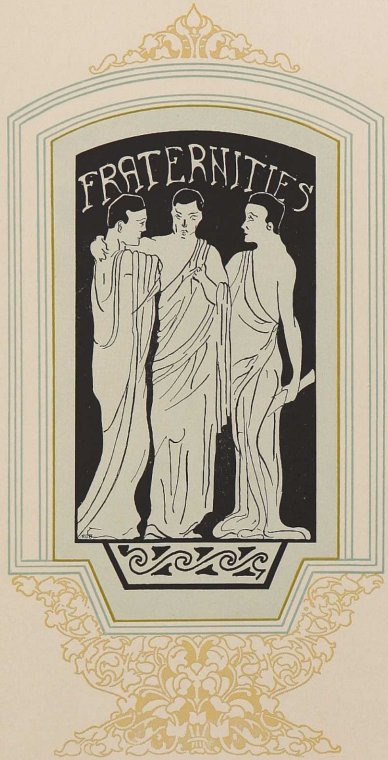

Since the advent of the new Gym the girls have had Lippitt Hall at their disposal throughout the winter. A real interesting Class Basketball League was formed with the Juniors winning over the Freshmen in the playoff by the close score of 24 to 21. Grace Brightman and Genevieve Fogarty were the mainstays of the victors.

The Connecticut Aggies Girls' team was again met this year, the contests resulting in a victory for our girls at Kingston and a tie at Storrs. The game at Kingston was slow but close, marred most of the way by the constant blowing of the referee's whistle.

The Rhode Island girls emerged victorious with a 20-17 score mainly due to the fine shooting of Capt. Kitty MacKay.

At Connecticut the game resulted in a 19-19 tie and was exciting from start to finish. Miss Genevieve Fogarty tied the game in the last few minutes of play with a basket.

It is now that the co-ed attention turns to class baseball, archery and the promotion of a May-day pageant. Frequently Mrs. Keaney sends the girls, on nice days, hiking through the field and woods about Kingston.

The Polygon is an organization composed of the eleven male fraternities on the campus. There are two members from each fraternity and two Faculty members elected each year.

The object of the Polygon is to promote friendship among the fraternities, to make rules for, and to supervise the rushing season; and to discuss and advise on matters of fraternal interest.

Rho Iota Kappa

Reluctantly they leave the campus and the house behind them. Joe, Red, Charlie, Matty, Jack Hoxsie, and Sandy. Entering when the house was new, they hold many tender memories of grading, planting shrubs, and road making. And those memories are not the only ones that they carry with them, for all but Sandy have many other interests besides study on the campus.

Those snappy jackets surely are something new and different, and the boys have taken up golf, so the jackets make nice golf jackets. We wonder if Dannie wears his fishing and trapping. Perhaps Midge, Joe Pos. and Mac used theirs on the boiler test. Fish and Wiggie used theirs as a means of attracting a certain Dean's attention from themselves. Murph has one, but he hardly needs one, for his size (tall is what we mean) is quite noticeable.

A large and happy-go-lucky class they were when they entered four years ago, but only three of them seem destined to pass through the portals this June. Jigger, Min and Steinle. Alpha Tau Gamma

These boys are the real backbone and founders of this new Fraternity that blossomed forth among us last year. Ravie, Charlie, Bill Callahan, Gaidys, Suter and Faella form the group, and their hard work and perseverance have been rewarded in the forming of an organization that has withstood the hardest part and now is riding along smoothly.

Believing that military service is an obligation of citizenship, and that the greater opportunities afforded college men for the study of military science place upon them certain responsibilities, the Cadet Officers in various Universities and Colleges conferring baccalaureate degrees, formed the National Society of Scabbard and Blade, in order to unite in closer relationship the military departments of American Universities and Colleges; to preserve and develop the essential qualities of good and efficient officers; to prepare themselves as educated men to take a more active part and to have a greater influence in the military affairs of the communities in which they may reside, and above all to spread intelligent information concerning the military requirements of our country.

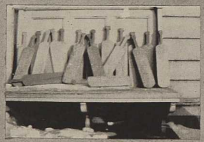

The cadet elected to Scabbard and Blade must be "an officer and a gentleman." He must possess the qualities of fidelity, ability, patriotism, respect for authority, courage, good-fellowship, honor—all of which lead to success in any line of work, military or civil.

The R. O. T. C.

Our unit in the scheme of national preparedness can be mighty proud of its record in the last decade. The College has attained distinguished college three times; perhaps we would have increased the number, but the War Department abolished the rank of distinguished college and the annual inspection by Federal Inspectors, but the annual inspections are maintained by the Corps Area Officers.

In 1925, 1926, and 1927, the unit received distinguished rank, and in 1928 and 1929, under the new system, the college has been highly commended for its efficient and well organized outfit.

For the past three years the unit has paraded in Providence on Armistice Day, and each year has received considerable praise and comment about its appearance. Much of this praise is due to the conscientious work of the student officers, but the greatest credit is due to the untiring efforts of the regular Army Commandants.

Some of the new ideas instituted in the last few years that have improved the looks of the Battalion, are those shiny brass buttons, garrison belts, and the new white trappings for the band. The band this year seems even better than that of last year, and the unit bids fair to be better than any of its predecessors.

It is to be expected that the Battalion will maintain its high standard under our new Commandant, Captain Thomas Freeman, who is a soldier of the old school. The College should be proud of its unit, the officers, and their Commandant.

MISS TEXAS MCANDREWS *Secretary*
PROF. JOHN W. WELDIN *Treasurer*

This year the Lecture Association presented a series of entertainments that greatly excelled all past performances. Much credit is due to the efficient and well balanced organization fostered by Dr. Weldin.

Economist Club

FRANK LEE *President*
LELAND SMITH *Vice-President*
VERONICA FOGARTY *Secretary*
LEONARD RUSSELL *Treasurer*

This year the Economists have slipped a bit by not putting on the Eco Ball, and the students sincerely hope that they will spring forth on next April Fool's Day with their annual dance.

Men's Debating Society

DANIEL O'CONNOR *President*
BENJAMIN MAYHEW *Secretary*

The Debating Society consists of our most fluent talkers, and each year conducts a series of intercollegiate debates with various other college debating teams. The Debating Society has enjoyed a most successful career, and we feel sure that its success will continue.

The Blanket Tax Committee

PROF. MARSHALL H. TYLER *Chairman*
PROF. ROYAL L. WALES *Director of Student Activities*
MR. FRANK W. KEANEY *Director of Athletics.*
PROF. JOHN BARLOW *Secretary-Treasurer*

That's where our money goes. Through this efficient committee the student tax is carefully proportioned among the several campus organizations, including Athletics, *The Beacon*, and others of the college departments. To us it seems really a marvel that so many things are accomplished by this efficient committee with the amount they have to work with.
